

ROLL-TO-ROLL PRODUCTION OF HIGH-DENSITY SOLID-STATE LITHIUM ION BATTERIES

COMPANY OVERVIEW

Mission

HyET Lithium's mission is to reduce the costs of electricity storage.

Value proposition

HyET Lithium achieved the lowest Levelized Cost of Stored Energy (LCOE) through Roll-to-Roll manufacturing of 3D solid-state lithium-ion batteries.

Unique benefits

- High power density
- Safety and durability
- Excellent low temperature performance
- Safer and stabler than liquid batteries
- Enhanced recharge rate
- No volatile elements

Examples of markets served

**Manufacturing
and production**

Automotive

**Aerospace and
satellites**

Medical devices

Power buffering
